Summer Berry Shortcake

Ingredients

For 4

- 200g plain flour
- 80g granulated sugar
- 10g baking powder
- Pinch of baking soda
- Pinch of salt
- 90g cold unsalted butter
- 90g cold plain Greek yogurt
- 1 egg (for egg wash)
- 3 tbsp cold water
- 200g mixed berries (strawberries, raspberries, blueberries)
- 200ml heavy cream
- Extra sugar for the berries

Directions

Chill Everything First

Put the flour, butter, and yogurt in the freezer for 10 minutes. Preheat the oven to 200°C. Cold ingredients are the secret to flaky shortcake

Prep the Berries

Slice the strawberries and mix with the raspberries and blueberries. Sprinkle with a little sugar and set aside. They'll go juicy and syrupy while you work — the longer they sit, the better.

Make the Dough

In a large bowl, mix the flour, sugar, baking powder, baking soda, and salt. Add the cold butter in small pieces and rub it in with your fingertips until the mixture looks like coarse, lumpy sand.

Add the Wet Ingredients

In a small bowl, whisk the yogurt, egg, and cold water. Pour into the flour mixture and stir until it just barely comes together. Lumpy is fine — do NOT overwork the dough or it turns tough.

Cut the Shortcakes

Flour the table and pat the dough into a thick square — about 2.5cm high. Cut into squares or circles. Gather the scraps, pat out again, and cut more.

Place on a baking tray and brush the tops with a little beaten egg. Bake for 12–15 minutes until puffed and golden.

Whip the Cream

While the shortcakes bake, whip the cream to soft peaks — it should hold its shape but still look fluffy and light.

Assemble and Eat

Split a warm shortcake open. Pile on the juicy berries, spoon over the cream, and eat straight away. Summer in a mouthful.
